2024-2025 Team Evaluations

World Cup Ohio likes our athlete evaluation process to be with very little stress.

During Skills Clinics we will go over the elements they need to be assessed during Team Evaluations. These are to demonstrate the skills they have mastered to their highest level and their potential for new skills. We have several days of clinics in addition to evaluations, so they have multiple opportunities to show their skills. Many key elements are considered in our decisions, such as age, skill level, maturity and responsibility.

We ask that you attend as many Skills Clinics as possible. Coaches will also be available at Open Gym on Fridays from 7:30-9 pm to help you prepare for Team Evaluations. Please note: Open Gym that night is included.

We evaluate in small groups and encourage participants to re-do their skills if they are not 100% satisfied with their tryout. The selection of teams is a very tedious and often complicated process for our staff, and many key elements are considered in our decisions. We must choose a well-rounded variety of individuals for each team that consider the team successes but also the proper progression for each individual athlete. Per the Competition score sheets & judging rubric, we stay competitive by requiring that MORE THAN THE MAJORITY of athletes need to participate in ALL LEVEL APPROPRIATE SKILLS. Exceptions will be made to create a well-rounded competitive team.

Please Note: Tryouts are closed to all parents and spectators.
